**SECURITY MEASURES AGAINST MODERN SLAVERY
AND HUMAN TRAFFICKING**

The vast majority of refugees entering Romania are children and women. In addition to the people who want to help, there are people who will take advantage of these vulnerabilities and exploit the need for security and protection. Thus, all these people are exposed to false offers and may enter into exploitation situations.

If you come in contact with such people:

- inform them about the emergency numbers 112 and 119 (they already have Russian-Ukrainian interpreters)
- guide them to seek support from authorities, organizations or individuals who work closely with the authorities and who send them the message in a language they understand
- inform them to **keep their identity documents with them at all times**, not to hand them over to anyone and, if they can, to have a backup phone available

If they have chosen to travel with individuals who facilitate their transportation and / or offer them accommodation:

- encourage them to communicate with other trusted people or family members about the person's destination, transportation, name, and even picture, and even establish a "safe word".
- especially if you meet unaccompanied minors, work with trusted authorities or organizations to reach safe support programs

Ukraine

- work with IDPs within the country ; providing basic support, over night shelters; resting area, snacks and hydration, free wifi.
- Kiev – shelter have a worship everyday 6 pm
- People have been able to move in the green corridor, in some areas however, the ceasefire has been broken so movement is difficult.
- Bank system is working and communication is ok at the present time.
- Collaboration with other organizations for Humanitarian aid from Germany – the division has been given access to warehouse in Lviv, Pentecostal church given car for use to assist with distribution.
- Kharkiv and Donetsk - no activities due to the dangerousness of the officers and workers

Moldova

- provides services while refugees transit via the country;

All Chisinau Corps +DHQ+THQ+Ialoveni Corps provide transporting refugees from all Ukrainian -Moldovan Borders to moldovan cities and towns+ to Romanian Borders
- There are less people coming to the corps as they are travelling to Romania and Bulgaria, then going to Germany, France etc
- People are only staying for paperwork and documents
- The corps people and officers are going to train stations – 1000, people went on Tuesday
- Two groups went to north of the country/border region

- Give medical assistance to Odessa children's hospital again this week. This includes formula nappies and medication. They are collaborating with other organizations for this work to continue.

Romania

- Helping camp at the border with 400 places, although it has not been full so moving to Bucharest.
- There is a meeting of all NGO's and government in Bucharest next Monday which will be attended by Roxy to see what assistance is needed and some longer term planning
- People can no longer go to the border to pick up people, you need to be a register organization to do this. Police are checking vehicles on the boarder
- Many people are using the trains as they are free from Romania to Hungry
- The teams have been to the border, handing out AHT flyers

Bulgaria

Prayers:

- **we pray for Ukrainians who run away from their cities\homes that they can find safeness and comfort places**
- **we pray for the wisdom and the best ways of communication between all of us in the EET so we can be effective and respond on the situation with love to God and humanity and patience in our hearts.**
